## Water Blocking Tracer Wire System

With NEPTCO's new breakthrough in Water Blocking Tracer Wire you'll be able to trace your new or existing water, sewer, gas, and telecom lines for a lot less, and with greater peace of mind. Not only does our new product cost less than traditional solid copper tracer wire, it provides you with a permanent location system.

- ▲ Permanent Lifecycle Product – No Existing Tracer Wire Can Compare
- ▲ Conductor Won't Corrode
- ▲ Passed 3 Meter Water Head Test
- ▲ Superior Flexibility Provides Easy Installation
- ▲ New Connector Eliminates Need To Strip Insulation
- ▲ Superior Impact Strength over CCS and Solid Copper Tracer Wire
- ▲ Gel Filled Splice Closure Accommodates Lateral Connections
- ▲ Will Not Conduct An Electrical Current If Struck By Lightning (Tests performed at Lightning Technologies Inc.)
- ▲ Superior Locating Results Versus 12 Gauge Copper (Tests performed by Staking University – Mike Parilac)

Switch to NEPTCO's direct bury system.  
You'll find everything you need and you'll find it for less.
